CLEAR TBI
NEUROLABS

Bringing Clarity to Brain Trauma

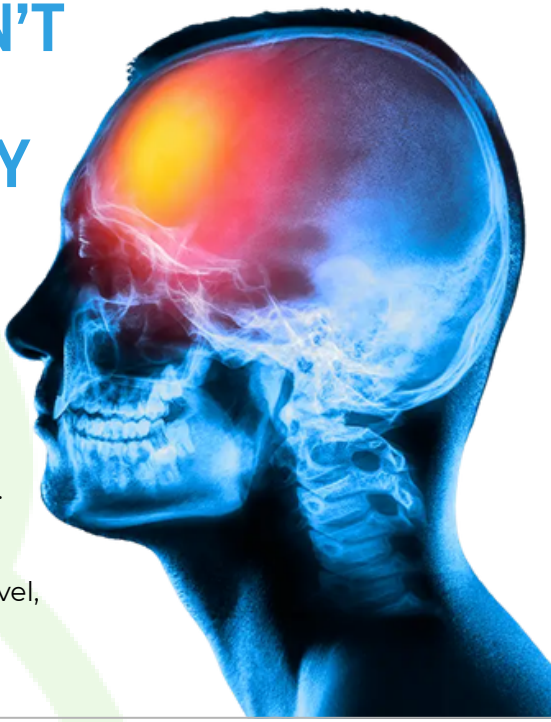

OBJECTIVE BIOMARKER TESTING
FOR TRAUMATIC BRAIN INJURY

Science-backed biomarker testing designed to support informed patient care following head trauma.

Focused on clear, objective data and temporal accuracy.

ClearTBI.com

SYMPTOMS DON'T ALWAYS TELL THE FULL STORY

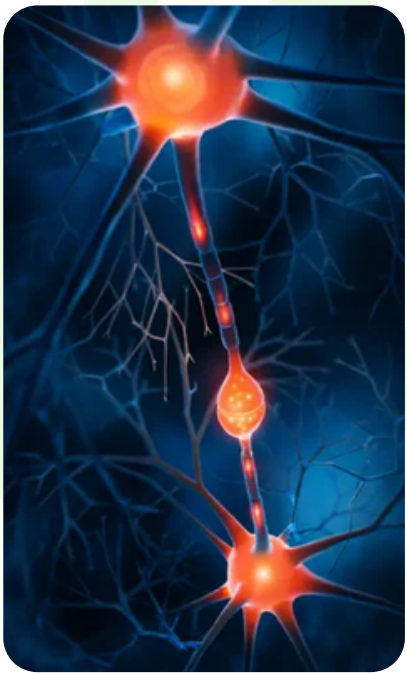

Traditional imaging may not detect the microscopic brain changes caused by trauma.

Clear TBI NeuroLabs uses blood-based biomarker testing to help provide objective clinical insight into traumatic brain injury.

Our **Neurotrauma Assay Panel** identifies injuries at the cellular level, helping support more informed, data-driven clinical decisions.

WHY BIOMARKERS MATTER

Blood-based biomarkers may help **reveal biological changes associated with traumatic brain injury** that are not always visible through traditional evaluation methods.

Biomarker testing helps support:

- OBJECTIVE CLINICAL EVALUATION
- DATA-DRIVEN DECISION MAKING
- IMPROVED CLINICAL INSIGHT

Gain a better understanding of biological response following trauma.

WHY CLEAR TBI NEUROLABS

Advanced biomarker-based diagnostics for objective TBI evaluation

OBJECTIVE CLINICAL INSIGHT
Supports clinical evaluation with measurable biological data.

TEMPORAL ACCURACY
Focused on insight into the biological response following injury over time.

SIMPLE COLLECTION PROCESS
Convenient blood and swab collection designed to fit provider workflows.

SCIENCE-BACKED TESTING
Advanced biomarker testing designed to support informed patient care.

POTENTIAL CLINICAL APPLICATIONS

- ✓ Concussion Evaluation
- ✓ Persistent Post-Concussive Symptoms
- ✓ Sports-Related Injury
- ✓ Motor Vehicle Accidents
- ✓ Cognitive Concerns Following Trauma
- ✓ Occupational Injury Assessment

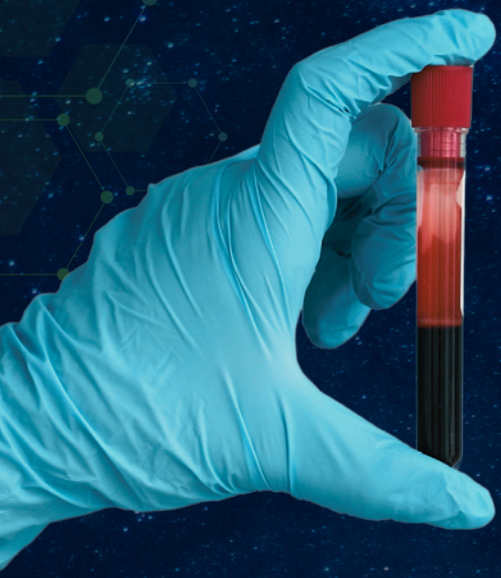

OBJECTIVE DATA. CLINICALLY RELEVANT INSIGHT.
Supporting informed decisions in traumatic brain injury care.

Clear TBI Symptom Screening Tool

Use our preliminary assessment designed to help identify individuals who may qualify for traumatic brain injury biomarker testing.

ADVANCING BRAIN INJURY CARE
THROUGH OBJECTIVE SCIENCE

Clear TBI NeuroLabs is dedicated to providing healthcare professionals with advanced biomarker testing that supports more accurate evaluation, better documentation, and improved patient outcomes.

IDEAL FOR

- Neurology
- Functional Medicine
- Sports Medicine
- Integrative Medicine
- Chiropractic
- Precision Medicine Practices

PARTNER WITH US

Bring objective clarity to brain injury care.
